DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13-26 Are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: Related to the 1st and 2nd control inputs, relative to the pressure regulator and the hydraulic switch. It does not appear as though the 1st control input has any function. Further it is indefinite as to what interaction occurs between the 2nd control input and the hydraulic switch. Both are connected in fluid communication with the pressure regulator, but it is indefinite as to what, is or does control pressure regulator, or how the function of the 2nd control input differs from the function of the hydraulic switch.

Finally it is indefinite as to what control, if any, is provided over the vibrator, by said control inputs and said hydraulic switch. Hence, any clarification of the actual function performed by the control inputs, pressure regulator or the hydraulic switch, would likely demonstrate the claimed features' patentable subject matter, thereby overcoming this rejection

Allowable Subject Matter

2. Claim 13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

3. Claims 14-26 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
